

KENNETH JHUN N. BALINO

Full Stack Developer

[kennbalino@gmail.com](mailto:kennbalino@gmail.com) | 63+ 9091104535 | [Github](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 1-year onsite experience building production-ready business systems using **React, NodeJS and Laravel/Django**. Skilled in developing role-based applications, RESTful APIs, and scalable backend architectures. Focused on delivering reliable, maintainable solutions that improve operational efficiency.

CORE SKILLS

|                           |                                                                                                        |
|---------------------------|--------------------------------------------------------------------------------------------------------|
| Programming Language:     | Python, PHP, TypeScript, JavaScript                                                                    |
| Libraries and Frameworks: | React.js, Next.js, Laravel, Django, Django REST Framework, Node.js, WordPress, Tailwind CSS, Bootstrap |
| Tools & Platforms:        | Prisma ORM, n8n, Google Analytics/GA4, SEO, Claude, ChatGPT, Github Copilot                            |
| Databases:                | PostgreSQL, MySQL, Supabase, SQLite3                                                                   |
| Cloud & DevOps:           | AWS, Docker, Vercel, DigitalOcean, Render, CI/CD basics                                                |

EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                             |
